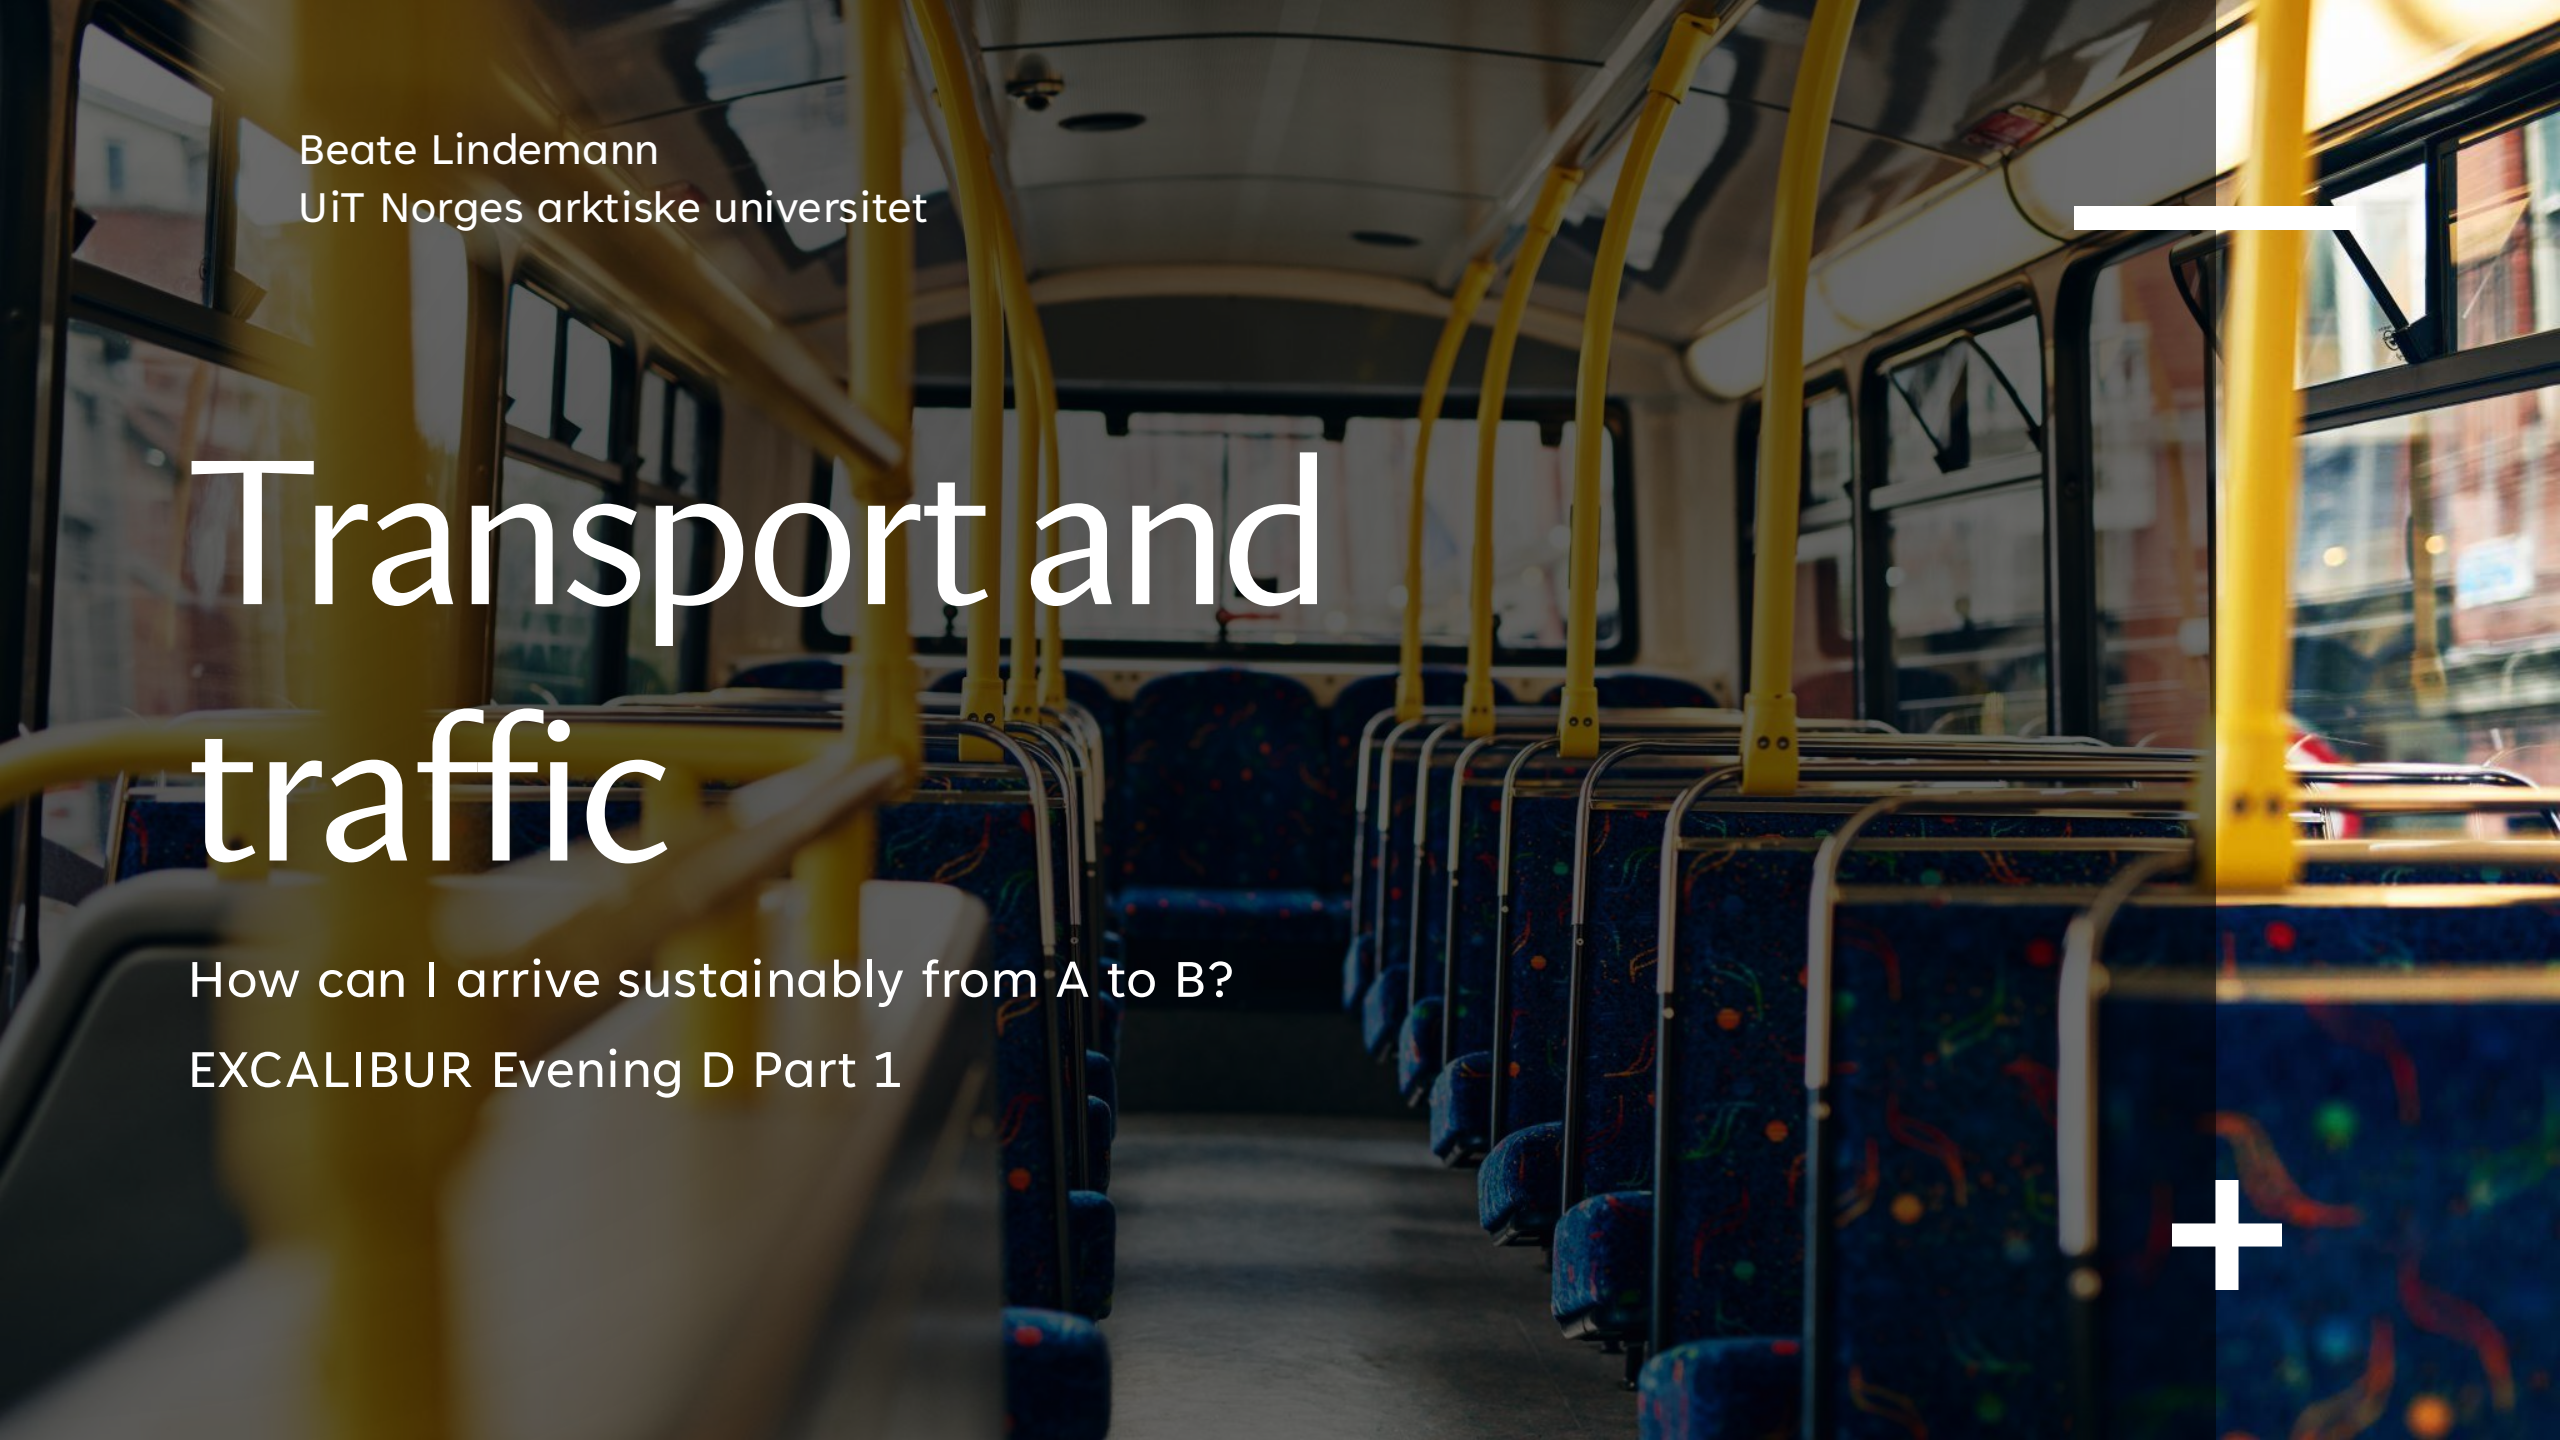
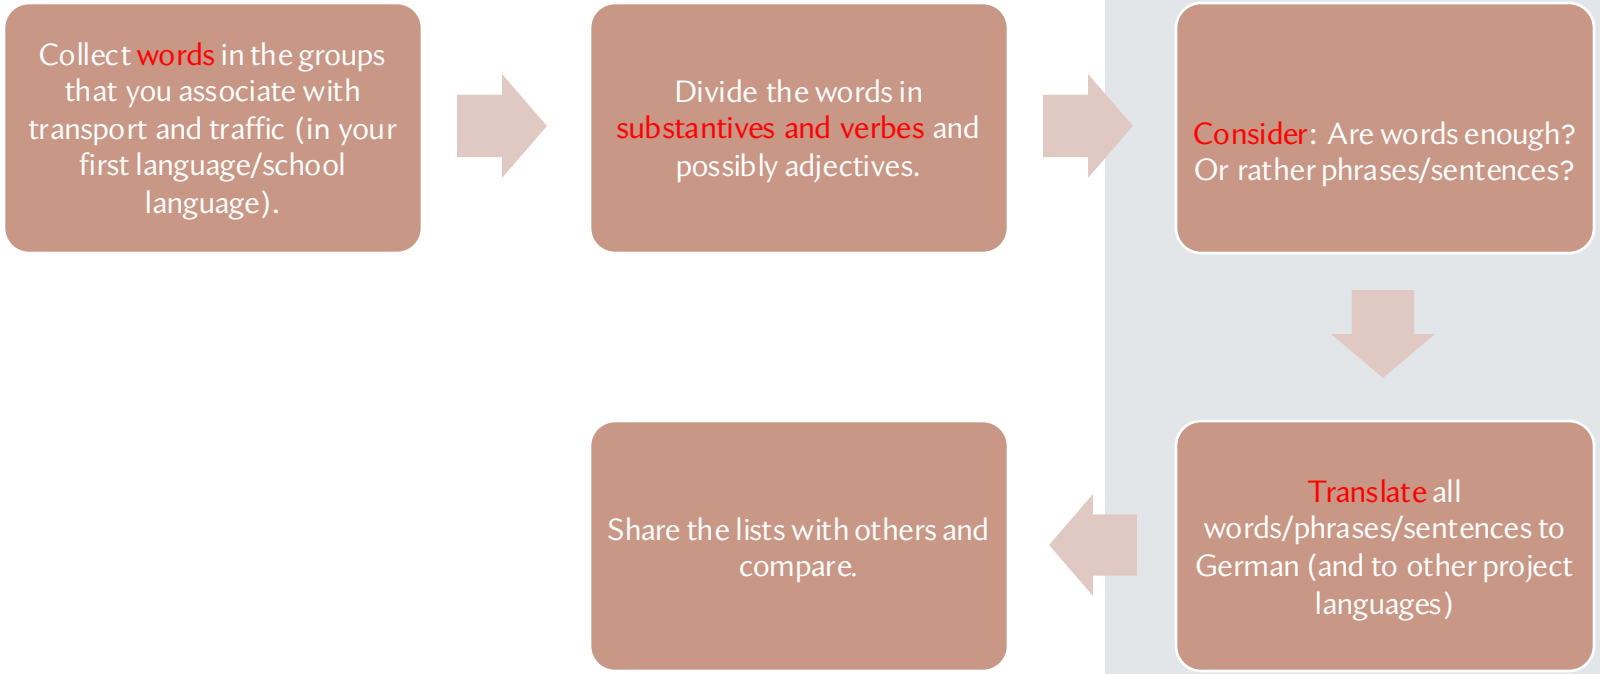
Transport and traffic

How can I arrive sustainably from A to B?

EXCALIBUR Evening D Part 1



Vocabulary for transport and traffic



Vocabulary lists transport & traffic

- **The importance of phrases/chunks/sentences:**

I travel to Germany/to Turkey.

I travel by train/car. I fly to…

The bus leaves at 12.15 (times; reading timetables).

The ticket costs 3 euros 10 cents (converting currency).

How much is the ticket? When does the bus leave?

Every day we have to go from A to B somehow... activity 1

Find out in your school (maybe an electronic survey?):

- how the students go to school and back
- how they go to free time activities
- how the students and their parents go the store(s), where they do their grocery shopping
- how the parents go to work

Every day we have to go from A to B somehow... activity 2

- Make **a table or a figure** of your results.
- Make a short Powerpoint presentation about it, where you speak in German.
- Present in the class or in the groups.

Compare transport / traffic in our countries

How do you transport **people** in your country?

A1. in cities

A2. in the countryside

Consider how sustainable this transport is and possibly how well it works. What could be changed? Are there good/better solutions in another country?

Compare transport / traffic in our countries

How do you transport **goods/wares** in your country?

B1. in cities

B2. in the countryside

Interesting blog

Read the following **blog post**. What do you think?

Is it so in your hometown? Can you survive only with a car?

Make a wish ...

- How can we transport people and things sustainably?
- Use your imagination! Everything is possible!
- The only requirement: Sustainability!

… and make it come true

- Build your wish in the game!
- Make a short video clip, where you advertise your dream transport of the future!
- Make an original in German (for this project) and an original with subtitles in your school language.
